Ednet Wireless Combo 2.4 GHz

Manual
86265

Read all instructions before use the product and keep this manual for future references

How to connect it to computer

1. Remove the battery cover of the keyboard and install it with 2 pcs AAA batteries. Put back the cover.
2. Remove the battery cover of the mouse and install it with 2 pcs AAA batteries. Put back the cover.
3. The mouse has an ON/OFF switch located on the bottom surface. Make sure it is in the "ON" position.
4. Take out the nano receiver from the mouse and plug it onto the USB port of the computer.
5. The computer will then connect those devices automatically.

How to pair the keyboard and mouse manually

The mouse and keyboard are paired during production. You can also manually pair them as per below:

1. Make sure keyboard and mouse are with battery installed
2. Plug the nano receiver into computer USB port
3. Press ESC+K on keyboard
4. The keyboard and mouse will be paired automatically.
